UNITE FOR GOOD®

DATE
JUNE 6, 2026

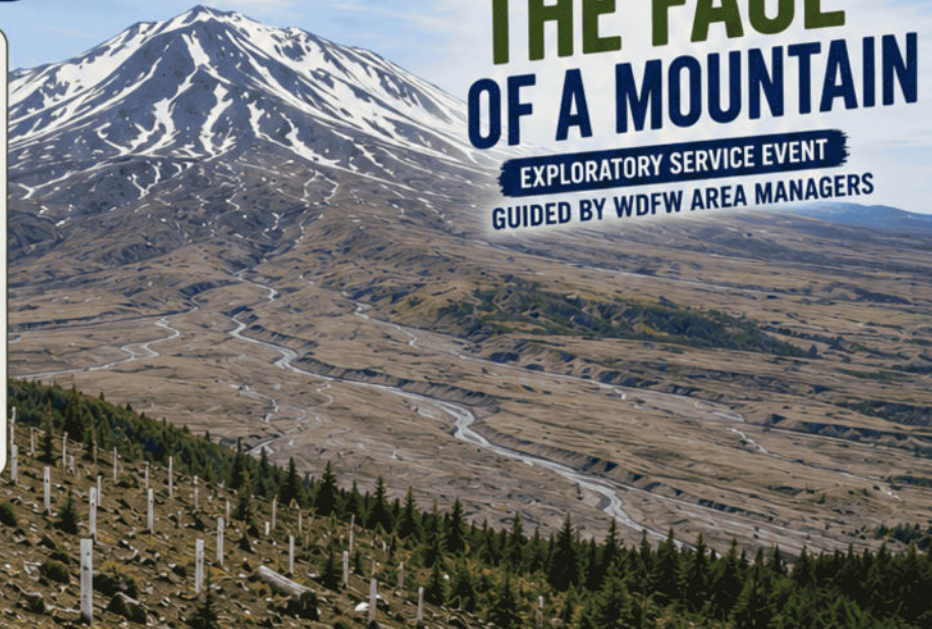

TIME
0800 AM – 1400 PM

LOCATION & MEETING PLACE
St. Helens Mudflow Habitat – Elk

- NEAR grid coordinates
46.328552, -122.415498
- Mile marker 30.5 of Hwy 504
- 50 feet past the 2000-foot
elevation sign

CHANGE THE FACE OF A MOUNTAIN

EXPLORATORY SERVICE EVENT
GUIDED BY WDFW AREA MANAGERS

HOW VOLUNTEERS CAN HELP

FOCUS AREAS: PUMICE PLAIN & SPARSELY FORESTED SOILS

Plant native trees
in harsh, pumice-rich soils to build forest cover and improve wildlife habitat.

Support mycelium and mushroom networks
by spreading inoculated wood chips and fungal-rich materials around plantings.

Enrich the soil with organic matter
(composted wood, mulch, biochar) to improve moisture retention and nutrients.

Protect young trees and soil
by installing tree cages, erosion control, and woody debris.

Monitor, maintain, and care for restoration sites
to improve survival rates and help forests thrive in the future.

Together, we can transform the Pumice Plain
from barren volcanic soil into thriving forest and wildlife habitat.

WHY IT MATTERS

The Pumice Plain and surrounding mudflow areas remain some of the harshest volcanic landscapes in the Pacific Northwest.

These soils lack organic matter, minerals, and beneficial soil life. Without healthy soil, water drains away, seedlings struggle, and erosion continues.

By working together to build soil health, enhance mycelium and mushroom networks, and plant trees, we:

- Restore forests and wildlife habitat
- Improve soil structure and moisture
- Reduce erosion and protect waterways
- Strengthen our climate resilience
- Create a legacy for future generations

LUNCH PROVIDED

BBQ
(With some Vegan options)

**TOGETHER,
WE CAN HEAL
THE LAND.**

UNITE FOR GOOD.

PUMICE PLAIN – SPARSELY FORESTED SOILS

PLANTING IN VOLCANIC SOILS

HEALTHY MYCELIUM NETWORKS

YOUNG TREES, STRONG FUTURE

WHAT TO BRING

BRING GLOVES, WATER BOTTLE, AND A SMILE!

**FAMILY FRIENDLY
NO PETS**
(Habitat Protection)

**PLANT TREES.
RESTORE HABITAT.
MAKE AN IMPACT.**

In partnership with the
**WASHINGTON
DEPARTMENT OF
FISH & WILDLIFE**
